CABLED TO COLOMBIA.

United States Desires to Continue Negotiations For Isthmian Canal.

TREATY HELD UP FOR THE PRESENT.

Radical Measures May Be Necessary to Obtain Control of Territory For Ship Canal.

Washington, Oct. 29.—The status of the Colombian canal negotiations is that both sides here are awaiting a decision of the Colombian government as to whether Minister Concha shall proceed under his original instructions to present to the state department the Colombian response to the department's proposal for a treaty. When the response arrived in Washington two days ago, the minister promptly notified the state department of the fact, but he added to his notice the statement that in view of the recent developments (meaning events that had happened on the isthmus since the note started from Bogota Sept. 16) he had regarded it as his duty to withhold it until he heard further from his government. As the state department had in some way come to know that the Colombian response would, if submitted, go far towards meeting the desires of this government in the matter of a canal treaty this delay was very annoying, but as the minister has his own notion of duty in the matter, it was decided that an appeal should be taken over to the authorities in Bogota. Accordingly a cablegram was sent to United States Minister Hart at the Colombian capital notifying him of the action of the Colombian minister here. No specific complaint was made, but it was desired to make sure that the Colombian government knew that the note had been held back. The matter of objection by our own officials attempt to link the negotiations for a canal treaty pure and simple, with the discussion of the questions of the correctness of the attitude of our naval officers on the isthmus. It is expected that the delay will not be long, for even if the Colombian answer is not satisfactory the United States government will still be bound by the terms of the Spooner act to proceed towards the construction of an isthmian canal, and the only question to be decided is as to method. There are two ways open even in case of an adverse attitude on the part of Colombia, namely, either the United States government to proceed without delay to complete the treaties with Nicaragua and Costa Rica necessary for the construction of a canal in those countries, or, and this latter course would be adopted with reluctance, the government might purchase outright the franchise of the French Panama Canal company and go on resolutely with the construction of the Panama canal, taking the ground that it would have a right to improve its own property without reference to any other government and taking no further notice of Colombia.

To Go to International Court.

Washington, Oct. 29.—Minister Wu is hopeful that China will be the power to submit the second case for the arbitration of The Hague tribunal. He is working hard to induce the powers parties to the treaty of Peking to consent to arbitrate the important question as to whether the indemnities to be paid them shall be paid on a gold or a silver basis. The issue of the utmost importance to China, in fact, it is said that the insistence of the powers upon the settlement on the gold basis would mean the ruin of the Chinese empire, which is totally unable to pay the vast sum of nearly four hundred and fifty million taels. Therefore Mr. Wu is striving to arrange for the submission of the question to the arbitration of The Hague and he also has appealed to the United States for help in influencing the other powers. Secretary Hay has met the appeal favorably and has consented to accept the proposition in behalf of the United States if the other powers can be brought into line. Of this there is much doubt, as China has no means of exerting anything more than moral suasion upon the parties, who are naturally reluctant to submit to the chances of an adverse decision claims which they now hold as good.

Bondsmen Must Qualify.

Lansing, Mich., Oct. 29.—The supreme court upheld the decision of Recorder Murphy of Detroit, that each of the bondsmen of Frank C. Andrews, the convicted vice president of the wrecked City Savings bank, must qualify in the sum of \$100,000, the amount of bail fixed by the supreme court for Andrews' release pending the decision of his motion for a new trial.

PRESIDENT'S PROCLAMATION.

Annual Proclamation Makes Provision For Thanksgiving Day.

Washington, Oct. 29.—President Roosevelt has issued his proclamation designating Thursday, Nov. 27 as a day of thanksgiving. The proclamation is as follows:

"According to the yearly custom of our people, it falls upon the president at this season to appoint a day of festival and thanksgiving to God.

"Over a century and a quarter has passed since this country took its place among the nations of the earth, and during that time we have had on the whole more to be thankful for than has fallen to the lot of any other people. Generation after generation has grown to manhood and passed away. Each has had to bear its peculiar burdens, each to face its special crisis, and each has known of years of grim trial, when the country was menaced by malice, domestic or foreign levy, when the hand of the Lord was heavy upon it in drought or flood or pestilence, when in bodily distress and anguish of soul it paid the penalty of folly and a froward heart. Nevertheless, decade by decade, we have struggled onward and upward; we now abundantly enjoy material well-being, and under the favor of the Most High we are striving earnestly to achieve moral and spiritual uplifting. The year that has just closed has been one of peace and of overflowing plenty. Rarely has any people enjoyed greater prosperity than we are now enjoying. For this we render heartfelt and solemn thanks to the giver of good, and we seek to praise Him not by words only, but by deeds, by the way in which we do our duty to ourselves and to our fellowmen.

"Now, therefore, I, Theodore Roosevelt, president of the United States, do hereby designate as a day of general thanksgiving, Thursday, the 27th of the coming November, and do recommend that throughout the land the people cease from their ordinary occupations, and in their several homes and places of worship render thanks unto Almighty God for the manifold blessings of the past year.

Excluded Former Evidence.

New York, Oct. 29.—Justice Lambert at the resumption of the trial of Roland B. Molineux, announced that he had decided to exclude the testimony of Mamie Melando and Joseph Farrell, given at the last trial of Molineux, which the prosecution wished to have read to the jury. Both of these former witnesses live in New Jersey outside the jurisdiction of the court and the former proceedings in the case closed with arguments in point of reading the testimony in the absence of the witnesses, who cannot be compelled to attend the trial. Miss Melando was the first witness at the first trial to connect Molineux with the blue crescent paper and Farrell testified that he saw Molineux in Newark with a small package the day the bottleholder was bought in that city.

Failed to Rout Revolutionists.

Willemstad, Island of Curacao, Oct. 29.—The opposition of President Castro of Venezuela is the same as it was after the recent indecisive battle between his forces and the revolutionists. He still occupies La Victoria with 5,000 men and the revolutionists have returned to the vicinity of La Victoria in large numbers and have occupied positions near San Mateo Vilda de Cura Cagua and Maracay. They say they are awaiting the arrival of all their forces at attack Castro. On Sunday last Castro twice tried to dislodge the revolutionists without result. The inaction of the leaders of the revolution has allowed Castro to reopen traffic on the German railroad, communicate daily with Caracas and receive food supplies. The situation of the president is still critical.

Student Strike Continues.

Lansing, Mich., Oct. 29.—The striking Michigan Agricultural college students decided that in case any paper appears from the faculty for students to sign, it shall not be signed until it has been brought up and passed on in a mass meeting of the students. This widens the breach between the students and faculty. A haloween resolution was also adopted by which provisions every student binds himself to stay in his room that night and not cut any capers. There are no signs of yielding.

Secured Eight Thousand Dollars.

Appleton, Wis., Oct. 29.—Martin Cornelius, a wealthy saloonkeeper of this city was held up and robbed of \$8,000. Leaving an interurban car he met two men who confronted him and ordered him to throw up his hands. One of the men held Cornelius' hands to his back while the other covered him with a revolver and went through his pockets. The money, which was in one roll and consisted of bills ranging in denomination from \$10 to \$500, was carried in his inside vest pocket.

IN STRIKE TERRITORY

Arbitration Commission Preparing For the Taking of Testimony.

BOTH SIDES TO ABIDE BY DECISION.

Mitchell Day Is Celebrated by Parades and Suspension of Work at the Mines.

Washington, Oct. 29.—The majority of the members of the anthracite coal strike commission have left here for Scranton, Pa., where they will meet to begin their investigation of the conditions in the mining region. The commission while at Scranton will arrange the details of the trip through the coal fields. The proceedings will not begin until the formal claims of the miners and the answer of the operators have been filed.

The first place to be visited after leaving Scranton will probably be Wilkesbarre.

The tour of the commission through the coal fields in advance of the hearing will be of a preliminary character, as the same points in all probability will be visited later for the purpose of taking the testimony of the mine bosses, foremen and the miners themselves. In the preliminary inspection and inquiry into the conditions at the mines the itinerary will be mapped out to cover the several important coal fields of the anthracite region. Important towns representative of each of the fields will be visited.

The commission will proceed to Wilkesbarre and then to Pittston, which points like Scranton are in what are known as the northern coal basin. Then the middle eastern fields and the southern coal fields will be visited in turn. The towns to be visited probably will include Hazleton, Shenandoah, Pottsville, Hazleton, Shamokin and Carbondale.

None of the members of the committee are willing to be quoted in predictions of the length of time the work of the commission will consume. They say that they will go into the subject exhaustively and one of them said privately that he believed the result would be ready within two months. "If either of the parties to the controversy should refuse to abide by the decision of the commission what could be done," the commissioner was asked. "I do not regard that as a possibility," was his answer. "We see no reason to anticipate anything of the sort. I do not believe that either side could face the force of public opinion by rejecting the conclusions which they have agreed in advance to accept."

In Honor of Their Leader.

Wilkesbarre, Pa., Oct. 29.—Mitchell day was celebrated by all the union miners in the anthracite region. There was a general suspension of work. A few washeries were working, but their output of coal was very small. President Mitchell arrived from New York. He will go to Scranton to attend the first session of the arbitration commission. There were demonstrations in many of the near-by towns and after the parade the people flocked to Wilkesbarre in large numbers to see the big parade.

Former Strikers Parade.

Shamokin, Pa., Oct. 29.—Mitchell day was observed here. Seven thousand United Mine Workers headed by the Tenth regiment band and troops paraded the streets, after which the mine workers were addressed by several labor leaders. No collieries were in operations and all business was generally suspended.

Returned From Arctic.

San Francisco, Oct. 29.—The whaling schooner Altair, which has arrived here from the Arctic, reports having sighted the schooner Olga, Captain McKenna in command, in a gale off Herschall island. The Olga was nowhere in sight when the storm passed away, and as she was a somewhat frail, serious fears are entertained for her safety. Captain Mogg of the Altair says that during his cruise he landed at Bank's land, which was discovered in 1819 by Explorer Perry. The signs on the beach showed that the island was thickly covered by reindeer and moose, but he thinks that he is the first white visitor since the discoverer sailed away.

Monster Mine Cave-in.

Joplin, Mo., Oct. 29.—The Stewart mill and other valuable mining property including seven shafts at Prosperity, near here, taking in over two acres of ground, caved in to a depth of 100 feet. The cave-in is perhaps the largest that ever occurred in the Missouri-Kansas district. Fifty miners escaped uninjured, having been warned of the approaching danger by the cracking of the ground.

FLEEING TO SAFETY.

Earthquakes Fill People of South America With Great Terror.

Guatemala City, Guatemala, Oct. 29.—There have been serious earthquakes throughout Guatemala and the volcano of Santa Maria is still in great eruption. There were tremendous detonations, like heavy cannonading. The Santa Maria volcano has thrown a deep mantle of ashes upon the town of Quenaltenango and upon the town of Mexantango. The volcano is near both of these places. All towns, villages and plantations near the volcano have been abandoned and the residents are fleeing to places of safety. The entire republic is in a disturbed condition owing to the seismic waves.

Guatemala City, although more than 100 miles from Santa Maria, hears its continuous thundering. Details of the eruption are not obtainable owing to the Guatemalan government taking possession of all telegraph lines in the interior.

Opium Is Confiscated.

Seattle, Wash., Oct. 9.—Eighty pounds of opium, which a Chinese steward of the coast survey steamer Gedney will be charged with attempting to smuggle into Seattle, was seized aboard the cutter by customs inspectors. Eight parcels worth in the aggregate \$1,024 were found in the steward's department. Gong Gee, the steward, is in jail awaiting trial for attempting to smuggle a countryman on the same voyage. A strange feature is the smuggler's assurance in selecting a government vessel for a vehicle with which to carry on his illegal practice. Secretary Shaw's young son, a guest on the Gedney, was induced by some representative of the Celestial to say that Gong Gee wanted his effects thrown overboard. This gave the officers the cue to search for the opium.

CRAZED BY RELIGION.

Religious Sect Abandons Their Homes and Are Now Starving.

Yorkton, Assinaboline, Oct. 29.—Word has been received by the immigration officials that in addition to the 1,300 Doukhobers who arrived here, 400 more are on the road and 400 more are preparing to desert their villages and farms. The leaders of the fanatics have no practical nor definite idea as to future action. They desire, they say, to convert people and find the "new life." One child died here. The religion crazed settlers look much the worse for their abstinence from the use of meat, their sparse diet and long tramp. The immigration officials have not decided what to do with them and the others.

Man and Wife Indicted.

Watertown, N. Y., Oct. 29.—Louis Richman, a wealthy manufacturer of New York, and his wife have been indicted on a charge of grand larceny in the first degree in having stolen a diamond necklace valued at \$25,000 and \$427 in money, the property of Mrs. Delabarre of New York, at Alexandria Bay. Mr. Richman was arraigned and pleaded not guilty. He was released under bonds of \$5,000. Mrs. Richman recently was adjudged insane and committed to a sanitarium.

Will Receive an Increase.

Chicago, Oct. 29.—Eight thousand shopmen employed by the Chicago and Alton railroad are to get an advance in wages of two cents an hour, beginning Nov. 1. The increase will approximate \$10,000 and will affect the machinists, boiler makers, repairers and general handy men in all the shops of the system. The men had filed a demand for an advance a month ago and asked for a flat increase of 20 per cent.

Took Five Thousand Dollars.

Rochester, N. Y., Oct. 29.—The vault of the private bank of Charles K. Knapp at Sodus, was broken into with dynamite by burglars and a sum believed to be \$5,000 was secured. The owner of the bank refuses to say how much was stolen. Not only the vault, but also the bank building was wrecked by the force of the explosion.

Convicts Pay For a Grave.

Baltimore, Oct. 29.—The body of Arthur Spencer, the noted convict who committed suicide in the Maryland penitentiary on Thursday last, was buried in Western cemetery, the expenses having been paid out of a fund raised by his fellow convicts. In this way the body was saved from the potters' field.

Convicts Returns the Booty.

Miles City, Mont., Oct. 29.—Warden McTague of the state penitentiary and, following Morrow's declarations, recovered \$4,500 in money which Morrow stole in May, 1900, from the Northern Pacific Express company and concealed near the Tongue river bridge. The package originally contained \$5,000, but Morrow had used \$500. It is probable his sentence will be commuted now that he has given up the money.

MOTHER AND SON DEAD

Train Robbers Was Thought Responsible For Two More Deaths.

MAN SHOT, WOMAN'S SKULL CRUSHED.

Demented Woman May Have Caused the Tragedy—Epidemic of Bank Robberies Throughout the Country.

Butte, Mont., Oct. 29A.—A special from Bearmouth gives the following details of the discovery of a diabolical crime at Conn ranch, on Willow creek, which was at first believed to have been committed by the bandit who robbed the Northern Pacific express train. A member of a threshing crew on an adjoining ranch had occasion to visit the Conn ranch and when he entered the farm house a terrible sight presented itself. On the floor with the brains oozing from his head, lay James Conn, dead, with a ragged bullet hole through his temple. Near him lay his mother, her head crushed in with a blunt instrument, presumably with the butt of a revolver. At the time of the hold up the Northern Pacific trained bloodhounds were put upon the trail of the robber and the dogs followed it for several miles in the direction of Willow Creek territory, but lost the scent. Those familiar with the country decided at the time of the robbery that in all probability the outlaw would attempt to escape that way as the country is such as to afford an excellent opportunity to evade capture, being heavily timbered.

Near the stable the threshing men met a demented woman who had dwelt with the Conn family for some time. This woman killed her husband about 20 years ago and it is suggested that she may have knowledge of the tragedy.

Dynamited a Bank.

Gardner, Ills., Oct. 29.—Six men blew open the vault of a bank here and took several thousand dollars. They seized Town Marshal Edmondson at the engine house, tied him up with ropes, took him to the bank and sat him in a chair. The marshal is the only policeman and everybody else in the town was asleep. The vault was blown open with dynamite and the inside of the bank wrecked. The robbers are supposed to have secured between \$3,000 and \$4,000, though the amount is not known. They took the marshal to the school house and tied him to a chair and put a rope around his neck. The chair was placed at the head of a stairway so that if he struggled to release himself he would fall down stairs and hang himself. The robbers took a train for Chicago.

Alleged Bank Robber Caught.

Des Moines, Ia., Oct. 29.—One suspect was arrested at Pella in connection with the Prairie City bank robbery and is being held to await identification. Night Watchman Erskine and Dentist Gifford believe they can identify the man, although the robbers wore masks. It has developed that there were five of the bandits, two of whom engaged in dynamiting the safe and that it required eight shots before the safe was finally opened. The loss has been definitely placed at \$4,500. It is believed that the bandits boarded the Rock Island train at Fairmont and went southeast. No definite clue has been obtained.

LAUNCHED IN JAPAN.

United States Gunboat For Philippine Service Is Successfully Launched.

San Francisco, Oct. 29.—The Japan Gazette of Oct. 16 gives an extended account of the launching of the Romblon, the first United States gunboat ever built in Japan. The gunboat is one of five ordered for service in the Philippine islands. The vessel was christened by Miss Evans, daughter of Admiral Robley Evans, who broke the usual bottle of champagne. At the same time a paper cage at the bow was cut open and a number of white doves liberated, the air being filled with paper blossoms which they scattered in their flight. Whistles were blown and the hands played the Star Spangled Banner. The ceremony was witnessed by about 200 invited guests.

Want Action Rescinded.

London, Oct. 29.—The fight between Messrs. Morgan and Yerkes' interests for the control of the tubes will be acted upon in the house of commons when the Morgans will endeavor to get the whole house to rescind its committee's decision that their project has no legal status. Representatives of the Morgan interests say the action of the opposition was a clear breach of faith, both to them and to parliament and the public. They doubt, however, the possibility of re-instating the bill this session.

There should be no stay-at-home Democrats in old Mason next Tuesday.

Maysville and Mason County should strive to give Jim Kehoe the biggest vote next Tuesday they have ever cast for any candidate.

The one thing for the Democrats of this city and county to do next Tuesday is to see that the full party vote is polled for Paynter and Kehoe.

Let his home city and county rally enthusiastically to the support of Jim Kehoe next Tuesday. He certainly deserves much at their hands.

EVILS OF TRUSTS POINTED OUT BY SENATOR HOAR.

Senator Hoar is one of the leading Republicans of the country. In a speech before a Republican club at Boston this week, he scored the trusts, summarizing the evils growing out of them after this fashion:

1. Destruction of competition.
2. The management of industries by absent capital.
3. Destruction of local public spirit.
4. Fraudulent capitalization.
5. Secrecy.
6. Management for the private benefit of the officers.
7. The power to corrupt elections, and in some cases to corrupt the courts.
8. Indifference to public sentiment.

GOVERNOR BECKHAM.

Kentucky's Brilliant Young Executive Will Deliver Four Speeches in the Ninth.

FRANKFORT, Ky., Oct. 28.—Though Gov. Beckham determined at the beginning of the present Congressional and Judicial campaign that he would not lay aside his official duties here to go on a speaking tour of the State, he has agreed to make several speeches at its close. The Democrats of the Sixth Appellate and Ninth Congressional districts have been especially insistent that the Governor visit these districts in several counties and speak for Judge Thomas H. Paynter and Congressman James N. Kehoe, and he has agreed to do so. Congressman Kehoe notified him this afternoon of four appointments that he had made for him. He will speak first on the afternoon of Friday, October 31, at Brooksville, Bracken County. On the evening of the same day he will speak at Augusta. On Saturday, November 1, he will speak in the afternoon at Carlisle, and on the evening of the same day at Cynthiana. The Hon. W. P. Kimball, of Lexington, will be with the Governor at Brooksville and at Augusta, and will also speak. Mr. Kehoe will be with him at the Carlisle appointment, and the Hon. H. V. McChesney will speak after him at Cynthiana.

MAYSVILLE'S PUBLIC BUILDING

Supervising Architect to Send Inspector Next Week to Investigate Sites Offered.

WASHINGTON, Oct. 29.—Clarence A. Miller, of the office of the Supervising Architect, leaves next week for Kentucky, where he is to investigate the question of public building sites in Maysville, Henderson and Bowling Green.

The appropriation for Maysville's building was secured by Congressman Kehoe last session and amounts to \$40,000. Several lots have been offered to the Government, and Mr. Miller will practically decide on the site on his approaching trip of investigation, provided any of them comes within the Government's requirements.

For years and years Representatives in Congress from this district had tried to secure an appropriation for a public building in Maysville, but they failed, and when Congressman Kehoe introduced his bill on this subject many of Maysville's citizens thought it would go the way of all its predecessors. But Mr. Kehoe gave them an agreeable surprise by putting the bill through. The committee first recommended an appropriation of \$30,000, but Mr. Kehoe succeeded in having it increased to \$40,000.

The Epworth League of the M. E. Church will give a social to-morrow night at the parsonage on West Second street.

Republicans Dissatisfied and Disrupted Over Trust Question—Roosevelt Must Do Something.

[Enquirer.]

"I am just from a business tour through Michigan," remarked George Simpson, a traveling man, of Detroit, "and the dissatisfaction and disruption among the Republicans in that State is disheartening to me, a Republican. The Democrats will gain three or four Congressmen. The chief cause of the trouble is the trusts in general, intensified by the coal strike. The apparent adjustment of the strike for the present, at any rate, does not seem to abate the bitterness, and thousands of Republicans are going to the Democratic ticket. Farmers, workmen and even railroadmen. The feeling is widespread. I was farther West recently, and there the people are up in arms against the trusts. If President Roosevelt does not do something soon, and in a very effective way, there will be a Democratic occupant of the White House after the next national election. Kansas is getting in very bad shape for us. I am sorry for all this, for I am a Republican, and think our party ought to apply the remedy. We might as well look facts in the face before it is too late. I believe Michigan will go Democratic sure as fate."

THE BEE HIVE

Dainty Things!

Are essentially women's things, especially the small ones. Some are never seen but by herself, yet each must represent an individual daintiness beyond its practical use.

Take her corsets, hosiery or lingerie, for instance. Is she not as particular in these as in her handkerchiefs, or gloves, veils or neckwear, her fan or stationery? That is why our store must appeal to her. We have all these things just as dainty as their use will permit. Things such as Shoes, Cloaks and Furs depend upon beauty rather than daintiness. We have these too and no stint to variety, either. Our costs are actual worth.

MARRIED WEDNESDAY.

Miss Florence Rash, of Rectorville, and Mr. Alva R. Beckett, of Cottageville, Wed.

A very pretty wedding took place at 12 o'clock Wednesday in the parlor of Rev. Robert Tolle, when Miss Florence Rash, of Rectorville, and Mr. Alva R. Beckett, of Cottageville, were united in marriage. The wedding was a surprise to the young couple's many friends.

The groom is a son of Mr. Mark Beckett, of Orangeburg, and a nephew of Mr. Jas. S. Beckett, of this city, while the bride is a beautiful brunette and is one of Rectorville's charming young ladies.

Those present at the wedding were Mr. and Mrs. Andrew Beckett and Mr. Walter Beckett, of Orangeburg, and the groom's cousin, Mrs. Florence Cone, of this city.

Their friends join in wishing this happy young couple a bright and happy life.

At Valley Forge To-night.

William L. Roberts' colonial play "At Valley Forge," which will be the attraction at the Washington Opera House to-night is a charming story of heart interest and threaded on the theme are numberless situations which serve as well devised sequences to the proper presentation of a well told narrative. The scenic environment is particularly massive, faithfully illustrating the actuality of old Valley Forge and Trenton. Among the many well-known names are those of Josephine Foy, who will be seen as the stellar feature, and Herbert Barrington, James Daly, Laura Lambert and other well-known artists.

Allan D. Cole will speak at Vanceburg Saturday night.

Admission to Episcopal Church social to-morrow evening 10 cents.

Mrs. L. V. Davis' winter millinery opening Friday and Saturday, this week.

Thursday, Nov. 27th, has been set apart by the President as Thanksgiving Day.

Policeman Powers of Augusta accidentally shot himself in the hand while handling a pistol.

There will be a Democratic speaking at Aberdeen to-night. Maysville's Indian Band will furnish music.

The State Railroad Commission will meet at Frankfort next Wednesday to begin its work of assessing the railway property in the State.

The Kentucky Good Roads Association will hold its annual meeting at Lexington Nov. 18th and 19th. Maysville is asked to send fifteen delegates and Mason County five, the Mayor and County Judge to appoint them.

Sock McLean, a young man living on Dillon creek, in Lewis County, shot and seriously if not fatally wounded Welburn Stacy while going home from church. Stacy received two shots in the back. No motive is known for the deed.

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whiskey, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

REGISTRATION.

A Total of 132 Voters Enrolled This Week.

The Grand Total is 1,469—Democrats 678, Republicans 594, Independents 197.

The special registration closed last evening, a total of 132 voters being added to the list, as follows:

Democrats	71
Republicans	51
Non-committals	10

The regular registration brought out 1,337 voters, so the grand total for this year is 1,469, the political affiliation being as follows:

Democrats	678
Republicans	594
Non-committals	197

This registration shows quite a loss compared with a year ago. The Democrats make the best showing for years.

THE MEDICAL SOCIETY.

Dr. Browning Discusses Recent Diagnostic and Therapeutic Methods—An Admirable Paper.

The County Medical Society held its first meeting yesterday since the reorganization last September. There was a full attendance and the usual manifestation of interest.

The admirable paper read by Dr. A. G. Browning was listened to with the closest attention. His discussion of recent diagnostic and therapeutic methods showed a wide range of research, and his strong plea for adherence to established principles in the investigation and treatment of disease was approved and applauded by every member present.

The general discussion which followed brought out many points of interest to the general practitioner; and it was generally agreed that whatever he thought of the medical art in its modern aspects, it is clearly impossible to dispense with the well-tested methods that have given acceptance and success to medical practice in the past.

The essayist is one of the most accomplished physicians in the State, and amply sustained this reputation in the paper which he read.

Mr. R. B. Lovel, the leading grocer, kindly favored the BULLETIN this morning with a gallon of his fine open-kettle New Orleans molasses. Nothing better made in this line.

Messrs. I. M. Lane, Robert Ficklin and E. H. Bryant are candidates to fill the vacancies in the Board of Education from the First, Fourth and Sixth wards respectively next Tuesday.

Mr. C. F. McNamara has accepted the management of the merchant tailoring department for J. Wesley Lee. Mr. McNamara has had years of experience in his business, and patrons of the house can feel assured of the very best work.

RIVER IMPROVEMENT.

Arrangements for Transportation of Delegates to the Approaching Convention at Parkersburg.

For transportation to eighth annual convention of the Ohio Valley Improvement Association at Parkersburg, it has been arranged—

1. That persons who pay first-class fare by rail going to the convention shall be returned at one-third the highest limited fare by the route traveled, on the usual certificate.

2. Certificates to be secured from the selling agent at starting point and on arrival at Parkersburg deposited with the Secretary of the association. Without a certificate no concession in return fare will be secured.

3. Certificates after endorsement by the Secretary and representative of the railroads should be presented by the holder to the ticket agent at Parkersburg to secure reduction in return fare.

4. Delegates and visitors alike will be entitled to these concessions, provided the conditions are complied with.

5. Ticket agents should have timely notice of the demand for certificates to the end that through tickets and certificates may be ready when required.

6. From Cincinnati and points south and west of Cincinnati special arrangements are as follows:

Tickets from Cincinnati to Parkersburg and return \$6.

Special sleeping cars will be provided on the train leaving Cincinnati Nov. 10th 6 p. m. which may be occupied at Parkersburg during the convention at the following rates. Single berths \$6.

Sections \$12. Applications for space in these special sleepers should be made at the office of the B. and O. Railroad Co., corner Fourth and Vine, Cincinnati. The special sleepers will return Nov. 12th p. m. on the train arriving in Cincinnati at 8:14 a. m. Nov. 13th.

7. Parties who have not already reported their intention to attend the convention are requested to do so.

The Four D's.

Charles Spurgeon once said that there were three great enemies to man—"dirt, debt and devil." He might have added one more and included dyspepsia. The evil result of this disease could hardly be exaggerated. Its effects are felt in mind and body, and are as far reaching as the effects of the curse that was laid on the Jackdaw of Rheims which was cursed in "eating and drinking and sleeping, in standing and sitting and lying." The good effects of Dr. Pierce's Golden Medical Discovery are most marked in aggravated and chronic cases of dyspepsia. It enables stomach glands to secrete the necessary quantity of digestive fluids, and this at once removes that craving or gnawing sensation so common to certain forms of indigestion. It tones and regulates the stomach, invigorates the torpid liver and gives the blood making glands keen and assimilative power. "Golden Medical Discovery" cures ninety-eight per cent of those who use it. Dr. Pierce's Pleasant Pellets are superior to all other laxative medicines when the bowels are obstructed.

The Good Newspaper.

The good newspaper, says the Sioux City (Iowa) Journal, will undertake to give its readers news, as reliable as can be, and intelligent comment thereon. The good newspaper will report sensations but it will not busy itself in making them.

The world is full of humbug, treachery, scheming, fraud. The use of the newspaper as an auxiliary force is constantly sought. The wonder is not that newspapers are so bad; the wonder is that they are as good as they are.

The credit belongs to the dominant management of newspapers and to the army of newspaper workers throughout the world.

Portsmouth, O., Oct. 29.—In a saloon brawl Holly and Charles Whitman were probably fatally stabbed and Edward McCullon badly cut. Eight men participated in the melee and the saloon which was the scene of the fight was wrecked.

Revolution Broken.

Panama, Oct. 29.—The revolutionary general, Uribe-Uribe, with 10 cannon, 2,500 men and rifles and 300,000 rounds of ammunition, has surrendered to General Marjarras at Rio Frio, near Santa Marta. The forces under General Uribe-Uribe which were defeated at Laciencia, retreated to Rio Frio and took up a new position. General Marjarras, with 2,000 men, proceeded against the rebels from La Cienega and engaged the enemy two days ago.

Folk Still After Them.

St. Louis, Oct. 29.—Under the direction of Circuit Attorney Folk, alleged false registration and contemplated election frauds were taken up by the October grand jury and will be investigated. Mr. Folk says that if the investigation reveals that a false registration has been practiced indictments will be issued.

Body Is Identified.

Upper Sandusky, O., Oct. 29.—The decomposed body found in a culvert near here has been identified as William Wade of Ironton, O. The theory of murder is still held by local officers and a boon companion with whom the dead man was last seen is mysteriously missing. His name is Phillip Nagel.

Arrested in California.

Los Angeles, Cal., Oct. 29.—Edward Stroebel has been arrested for alleged embezzlement at Evansville, Ind. He admitted his identity and will be held pending the arrival of an Indiana officer.
